General Information about Uruapan

Is the second city of importance and population of the Michoacán state, situated at 1,634 meters above sea level. It's vegetation is subtropical with abundance of flowers and fruits. The climate is humid temperate with a nice temperature between a maximum 35° C and 6° C minimum and a mean of 24° C. The Rain season begins on May normally, and finish on October; It is possible to say that thanks to this climate visiting Uruapan is always good. Besides, it is surrounded by pine and holms oak Woods, as well as beautiful avocado orchards that have gained the name of "World Capital of the Avocado". It is also famous because of the shellac or lacquer handicrafts, the production of sugar cane "Charanda" or rum, stone chocolate, coffee and more.

Uruapan, garden of Eden, blessed with an excellent weather, fertile soil, and the eternal stream of life from the Cupatitzio, the "singer river from which the wonderful people of Uruapan lives and develops, It's history has been an example of fight and social and economic overcoming, honouring his real name: Uruapan of the progress.
