<b>Summary</b>		
Project /Proyecto:	Revision of RSPM 35 – <i>Guidelines for the movement of stone and pome fruit tree and grapevines into a NAPPO member country.</i>	
General comments:	The main focus of this conference call was the Standard revision.	
Item 1:	Announcements	
Consensus:	<p>The TD informed the EG that:</p> <ul style="list-style-type: none"> <li>• CPM 15 has been once again postponed until further notice from the IPPC.</li> <li>• The NAPPO Secretariat will not continue to use the Intranet portal to share files with the EG. EG members will be notified when NAPPO moves to the new website platform and will disable the Intranet Portal system.</li> </ul> <p>The Chairperson indicated that NAPPO shared the latest pest table document with the EG and asked EG members of the different sub-groups to think about scheduling calls to continue with the pest tables work. The Chairperson requested to the sub-groups to provide any updates to the Secretariat for the Secretariat to translate and share the information with all EG members.</p> <p>Comments on the pest table work:</p>	

	<ul style="list-style-type: none"> <li>• Most diseases of unknown etiology were removed. The subgroup needs to determine how to proceed with those diseases whose etiology is known but no Koch postulates have been proven.</li> <li>• The Chairperson thanked all EG members for the work done on the pest table updates.</li> </ul> <p>Western Extension and Research Activity (WERA) 20 meeting update:</p> <ul style="list-style-type: none"> <li>• Members from the research and extension community participate in discussions regarding diseases of fruit trees and grapevine in the Western US and Canada.</li> <li>• Conference takes place once a year. In 2020 it will be virtual via Zoom in the second half of May.</li> <li>• Updates from the EG work are provided in this conference.</li> </ul>	
Item 2:	Revision work.	
Consensus:	<p>EG members continued with the revision work on the document in sections 2.1.7 (Phytosanitary management), 2.1.8 (Inspection and diagnosis) and 2.1.9 (Documentation and identification).</p> <p>The chairperson requested that EG members review the remaining sections of the standard for discussion on the next call.</p>
